Angelo A. Gasparri helps middle-market businesses, investors, and management teams navigate complex business decisions and transactions with confidence. Drawing on more than three decades of experience as an attorney, corporate executive, and consultant, he provides practical, business-focused counsel across the full lifecycle of a company, from formation and growth to strategic transactions and exit planning. Known for aligning legal strategy with business objectives, Angelo delivers actionable solutions designed to manage risk, enhance value, and support long-term success.

Angelo concentrates his practice on general corporate and business law, with a strong emphasis on transactional matters. He advises privately held companies, investors, and deal professionals on mergers and acquisitions, corporate governance and structuring, and a wide range of commercial transactions. His experience also includes business succession planning, corporate reorganizations, and the structuring of joint ventures and strategic partnerships.

He represents clients throughout the entire transaction lifecycle, guiding them through pre-sale planning, due diligence, negotiation, deal execution, and post-closing integration. Angelo works closely with CPAs, investment bankers, and financial advisors to support efficient deal execution and effective structuring. His approach centers on helping clients maximize enterprise value while mitigating legal and operational risks.

What distinguishes Angelo is his perspective as both a lawyer and an experienced business operator. Having served as a Big Four consultant, corporate executive, and interim Chief Operating Officer and General Counsel, he understands the real-world pressures business leaders face, from managing operations and vendor relationships to navigating high-stakes negotiations and organizational change. This experience enables him to assess businesses through a transactional lens, anticipate issues before they surface in diligence, and connect legal strategy directly to the outcomes that matter most to his clients.

Throughout his career, Angelo has advised senior executives and leadership teams on complex enterprise transitions, including acquisitions, restructuring initiatives, and global expansion strategies. He has led negotiations, closed acquisitions, and guided post-transaction integration efforts, helping organizations remain aligned and operationally
