Businesses, business owners, and individuals facing litigation need practical guidance, clear communication, and an advocate who remains focused on achieving their objectives. Federico J. Zablah represents clients in commercial, contract, real estate, and property disputes, helping them navigate complex legal challenges while staying focused on the outcomes that matter most to them.

Federico handles matters involving business and commercial litigation, contract disputes, real estate and property disputes, and appeals. He represents businesses, entrepreneurs, and individuals in state and federal courts, guiding clients through every stage of the litigation process. Because he handles both trial and appellate matters, clients benefit from continuity of representation from the initial dispute through final resolution.

A strategic litigator, Federico approaches each case with careful attention to both immediate objectives and long-term considerations. He builds strong factual and legal foundations while maintaining consistent communication, so clients understand the status of their matter and the options available at every stage. Whether pursuing a favorable settlement, seeking dismissal of claims, or advocating at trial or on appeal, he remains focused on advancing his clients' interests.

Before joining the firm, Federico practiced with a boutique litigation firm, where he represented clients in a broad range of commercial and civil disputes. He has served as lead counsel in both jury and non-jury trials and has substantial appellate experience, including successfully representing clients before the Supreme Court of Virginia. He is fluent in English and Spanish, enabling him to counsel and advocate for a diverse range of clients effectively.

Federico's experience spans complex business disputes, real estate litigation, fiduciary and contract claims, tortious interference matters, and appellate advocacy. His combination of trial and appellate experience enables him to evaluate litigation strategies from multiple perspectives and position cases for the strongest possible outcome.
