

Legislative Update Series

July 20, 2026

By Sidney Washington

Welcome to Offit Kurman's Legislative Update Series. Sidney Washington, practice group leader for the landlord representation team, sets the stage for a new series of short, practical compliance check-ins covering the most important legislative changes impacting housing providers across Virginia, Maryland, and DC. Each upcoming installment will break down a specific update: what changed, why it matters, and any action you may need to take. Some updates will serve as helpful reminders, while others may call for changes to your policies or procedures. Either way, the series is designed to make compliance simple, straightforward, and easy to implement, whether you're watching between meetings or sharing with your team. Subscribe, follow, or bookmark the series so you don't miss an update, and keep a running list of questions as you go. If you need additional guidance or help applying these changes to your communities, the Offit Kurman landlord representation team is here to help.
