

Meet Ed Mullin

July 13, 2022

By Jim Ries and Ed Mullin

Meet Ed Mullin, CIO and Vice President of Think Consulting. Think is a national technology and operations advisory practice that provides on-the-ground transformation and consulting, led by executives, adapted for the mid-market.

Ed Mullin is proud of seeing the kids who are a part of the Baltimore Robotics Center get signed to their first position or internship.

Ed Mullins looks forward to people having to think differently and looking at the world in a different way post pandemic.
