Offit Kurman Earns Recognition in Chambers USA 2025 Guide

June 6, 2025

Offit Kurman is pleased to announce that the firm's Corporate/M&A Practice Group in Maryland is recognized in Chambers and Partners' 2025 USA Guide Firm Rankings. Additionally, Principal Attorney Matthew A. Karmel, leader of the firm's Environmental and Sustainability Law Practice Group, is individually ranked in two New Jersey practice areas Energy & Natural Resources and Environmental.

"We are proud to be recognized by Chambers for our work across multiple practice areas," said Timothy C. Lynch, President of Offit Kurman. "This acknowledgment reflects the strength of our attorneys, our client-focused approach, and our continued investment in practice excellence. We're especially pleased to see the recognition of individual leaders like Matthew Karmel, whose work is helping shape the future of environmental and energy law."

Offit Kurman's mergers and acquisitions team is recognized for its role in helping mid-market businesses complete strategic transactions that drive growth and transformation. The group has led deals across a wide range of industries, including technology, healthcare, real estate, and government contracting. Known for its collaborative, business-focused approach, the team supports clients through all phases of M&A, from structuring and negotiation to closing and integration.

"Being recognized by Chambers represents a significant milestone for our practice," said Greg Sutton, M&A Practice Group Leader. "This recognition reflects our team's dedication to delivering strategic counsel and our collaborative approach in navigating complex transactions. We're deeply grateful to our clients for their continued trust and partnership."

Matthew Karmel leads Offit Kurman's Environmental and Sustainability Law practice and is widely recognized for his leadership and impact in the environmental space. He advises a broad range of clients on complex environmental and energy matters, combining legal insight with a deep commitment to sustainability.
