

The Journey of Litigation

July 29, 2025

By Russell B. Berger and Sarah M. Sawyer

In this week's episode of OK at Work, attorneys Sarah Sawyer and Russell Berger from Offit Kurman discuss various aspects of litigation. They highlight that most litigation cases don't go to trial, benefiting both courts and taxpayers. The conversation covers critical exit points in civil litigation, such as motions to dismiss and summary judgments, which can resolve cases before reaching trial. They also touch on the role of settlements and the complexities involved in the litigation process.
